How do I apply for a position at Valley Children's Healthcare?

Please visit our careers site at jobs.valleychildrens.org where you search for available employment opportunities. Please submit your profile for the position(s) that you are qualified for. We encourage you to create Job Alerts to get mail notifications when a position becomes available.

When you visit our online application system, it will guide you on how to create your profile. A resume is required to be considered for all positions. An email is required to create a profile. If you do not have an email address, there are several providers available that offer free email accounts.

You are able to return to your profile at any time to view the status of a job that you have applied to, search and apply to new position and update your information.

Make sure to remember your email address (username) as it will remain unchanged as long as the profile is active, even if the primary email address on the profile is updated.

It is important for your profile to be saved and submitted. Please make sure that you click the "Submit" button.

Please do not create a duplicate profile. Once you have created your profile, you may apply to one or multiple positions.
